We NEED Trump supporters in blue areas to infiltrate the Democratic Party before the midterms. I'm running for my state canvassing board

742

20 hours ago by REDMARAUDE +742 / -0

The Democrats are clearly not going to abandon the fraud if it worked. **We need to plan in the long term.** If you live near ostensibly blue areas like Atlanta or Philadelphia- register as a Democrat. You can run for office or just enlist in the party. Become a Democrat observer. Scrub clean any lingering social media with your real name. I can't share my location but I'm doing something very similar right now. **Camouflage is used by most frog species to help evade the eyes of hungry predators. You can provide MAGA with so much more help by getting closer.**

23 ▼ Dems invaded the republican party, hence rhinos, so we must do the same.

18 ▼ This is the way. EVERY dirty tactic of the left (short of election fraud) must be embraced by the right.

6 ▼ Almost every, we continue to employ a strong, truth led media that people are confident in taking facts from.

3 ▼ NGL, I'm not really opposed to voter fraud from our side after this last election. The left essentially says it doesn't exist so they're enabling their side to do it "for the greater good".

3 ▼ This is a not-logically-inconsistent position to take. We're entering unprecedented times.

victory while throwing the rule book out, then we'll do it too.

Ideal situation would be every state ditch voting machines and not throw out observers based on political leanings as well as do voter ID for every ballot. Since I doubt that happens, if someone decides to stack the deck in our favor next time then f it. Hack the dominion machines and change results, send in mail in ballots from fake people with fake addresses, harvest ballots, trade \$\$ for votes, count ballots for the opponent as for us by banishing opponent observers, bring out vans or boxes of ballots in the middle of the night and count, do all the stops. These are all acceptable per the left. And if people are caught? Ah darn too bad there is no standing, gee whiz.

2 When the evil Trump supporters literally had an insurrection and literally stormed the capitol and people literally died is when I knew I was a democrat.

There should be a few likes thrown in for good measure.

2 And schools. I was thinking of teaching at our state university. It would be a huge pay cut but you could be a liberal and give gentle red pills. Like... little red seeds you know will develop. But God you'd be surrounded by retards who think they know the world. You know the saying. Those who can, do. Those who can't, teach.

1
▼ 100% agree with this The plan is to take over the republican party at state level, and put MAGA candidates everywhere, state to federal level. And to take over the democratic party, vote like MAGA on policies. Take over all precincts and make sure MAGA will be the majority counting the votes.
